

Enhancing Healthcare for Adults on the Autism Spectrum

ECHO Autism Adult Healthcare

Primary care providers share complex patient cases and receive expert advice from autism specialists using live videoconferencing.

Who can join?

Primary care providers who see adults with autism or have an interest in this population.

Why join?

Free CME and MOC, Parts 2 and Part 4, compensation for completing pre- and post-training survey, opportunities to learn about resources for autistic patients.

When?

This six-month series is held twice a month in the convenience of your office using live videoconferencing.

Choose from two sessions:

- Nov. 2020 - April 2021
- Nov. 2021 - April 2022

Interested?
